To get the pool of your dreams, it's all about asking the right questions before you get started. Using this worksheet will help you organize your ideas and vision for your future pool.

What is your desired timeline? (when do you want to be swimming):

How many people will be using your pool on a regular basis?

Approximately, how large of an area is your outdoor space?

Can the space be easily accessed for install? Any special notes about your property or surrounding area?

Do you have a pool type in mind? (Gunite, Fiberglass, Vinyl Liner):

Adding a hot tub or spa to your design? Automatic Pool Cover? Heated pool? Slide?

Pool Shape: Curves or straight lines?

Color / Style preferences for the pool itself or patio/decking?

What other activities will you regularly partake in around the pool? (dining, reading, work from home, etc.)

Are there any decorative features you want included within the pool?

What is your approximate budget for your project?
